

Save the date!

for a Knowledge Picnic (workshop) within the European Benchmarking programme,
to collectively develop and learn, on the subject:

Finding relevant indicators for sustainable development in the European water sector

September 13th in Malmö Hyllie, Sweden

The Knowledge Picnic explained:

Challenge

For transparent accountability and self-learning capability, an organization needs suitable indicators.
Sustainability is highly relevant and essential to the water sector, but has no clear comparable indicators.

Goal

We want to solve a challenge for our sector: Together we will develop suitable indicators for the Sustainable Development Goals that can be used in the day-to-day management of European water services.

What to expect

In a co-creative workshop with representatives from several European water utilities (you?), we will address the challenge.

More details will follow.

Join the event!

You can register by sending an e-mail to: tom.bijkerk@waterbenchmark.org before the **31st of August.**

There is a maximum of attendees, so don't hesitate!

Organised by VA SYD (host), Waternet and EBC
20th June 2019
